

PUREON

Are you looking for a challenging job in a dynamic environment?

Pureon is one of the world's top providers of technologically leading solutions for the surface finishing of high-tech materials. Our products are used in a wide range of industries where the highest precision is required.

To complete our team we are looking for:

Production Manager

The Production Manager manages, coordinates, communicates, plans, and executes the overall production activities. The Production Manager will be responsible for the overall plant production, performance and integrating all aspects of the supporting department(s) to achieve those tasks. This role will interact and coordinate activities through co-workers and subordinates such as supervisors, material handling, engineering, to ensure completion of requirements.

Education

- Bachelor's degree in engineering or job-related field or equivalent experience

Experience

- Minimum 5 years' management experience
- Minimum 5 years' experience within automotive industry
- 3+ years of experience in engineering or quality required
- Proficient in quality systems, requirement, and practice
- Knowledge of Lean Manufacturing principles and 5S methodologies
- Strong written and verbal communication skills
- Strong problem solving and critical thinking skills
- Proven leadership abilities and professionalism
- Effective organization ability

Main responsibilities

- Direct and lead supervisors and all associated production team members to ensure deliverables are met on time, on budget, and to quality specifications
- Monitor, analyze, and report plant operating efficiencies and established KPI's to management staff
- Coordinate the activities of production, manufacturing engineering, product engineering, quality, P&L and other support departments to efficiently and effectively meet all production requirements and resolve issues
- Initiate and manage "Single Issues" list for problem resolution and continuous improvements. Participate in cross-functional root cause investigations when issues arise
