

PUREON

Surface Finishing Solutions for high-tech Industries

— become part of the team

Pureon is one of the world's top providers of technologically leading solutions for the surface finishing of high-tech materials. Our solutions are backed with in-house product development, research, and application testing along the entire value chain. Our global presence in manufacturing and research ensures we are closer to our customers to provide support with application development.

Product Manager

Location Monroe NC / Hybrid, Member of the Product Management Team

Pureon is seeking a Product Manager to oversee and develop designated product line(s), driving growth and profitability for the company. In this role, the Product Manager acts as a key link between sales, customers, and internal teams, ensuring that all product-related needs are met efficiently and effectively.

Responsibilities

- Manage product costing, pricing, and margin setting to maintain and improve product line profitability
- Drive product marketing strategy, including product, placement (channels), pricing, and promotion, in close collaboration with Sales and MarCom
- Provide sales support through the development and continuous improvement of products and product lines
- Oversee product administration and lifecycle planning, while collecting and analyzing market intelligence for regular reporting
- Support Sales and customers in identifying and specifying the most suitable products and solutions for their needs
- Define and establish pricing structures, including base prices, schedules, discounts, and market-specific adjustments
- Track, maintain, and grow gross margins across product groups
- Manage cross-functional projects for product development, improvement, and changes, working with Innovation, Sales, Production, Quality Control, vendors, and MarCom

Pureon Inc.
